

REFENSE

CAPABILITY STATEMENT

ABOUT US

J&F Alliance Group, Inc. is a technology solutions firm that provides advanced software solutions to commercial and governmental clients. J&F’s customizable solutions balance intelligent technology with human ingenuity through high-end augmented reality (AR), mixed reality (MR), and virtual reality (VR) applications.

J&F is proud to partner with Refense, the developer of the state-of-the-art virtual reality Refense training system built for law enforcement and emergency responders. Refense leverages virtual reality to provide realistic and immersive training for high-risk scenarios. The Refense System improves the tactical capabilities of your team/unit and strengthens the responsiveness of each participant while helping practice better communication in not only an efficient but a very effective way.

DIFFERENTIATORS

Feature	REFENSE	Other VR Systems
Train-as-you-fight <small>Make every training a strong experience that brings you further.</small>	✓	✗
Team-Based Training Sessions <small>Enter the VR-training-scenarios as a team and collaborate, as you do in reality.</small>	✓	✗
Train with up to 16 Participants <small>As a two-man patrol or as a 16-man platoon, take full advantage of team-based training.</small>	✓	✗
Full-Body Motion Capturing <small>Interact fully with your team because you get immersed full body into VR scenarios.</small>	✓	✗
Enhanced Virtual Reality <small>Interact fully with your team because you get immersed full body into VR scenarios.</small>	✓	✗
After Action Review <small>Analyze every training situation from any point of view in the After Action Review.</small>	✓	✗
Scenario Designer <small>Create your own VR training scenarios or even digital twins of a real environment.</small>	✓	✗
Immerse with No Compromise <small>A proven technology mix makes your VR training an added value to your mission.</small>	✓	✗
